

Thanks to your specialized expertise, able leadership, and willingness to explore fresh ideas, we made waves yesterday with the unveiling of **BizFed's new homelessness partnership**. Media outlets across Southern California picked up the story (*scroll down for clips!*) because what we're doing is new, different, and positioned to deliver lasting results a single sector cannot achieve alone. Elected officials from **Los Angeles County** and the cities of **Los Angeles** and **Long Beach** have committed to joining us in this **collaborative new effort** to eradicate homelessness.

We want to spotlight the civic leaders listed below who stood with BizFed's diverse cadre of members yesterday at CalArts REDCAT Theater to further the impact of our announcement.
