CALIFORNIA SENATE - HOUSING

SB-687 (2021-2022)

Emergency response: trauma kits

District 40 Senator [Ben Hueso](#)

Purpose

- Requires building managers/property owners to install and provide training material to tenants on how to use a tourniquet meant for tactical combat casualty care.

Status

- [History](#) 11/30/22 - From Assembly without further action.
- [Votes](#) 07/13/21 (PASS) - Assembly Judiciary - Ayes: 10, Noes: 1, NVR: 0 - Do pass and be re-referred to the Committee on [Appropriations].

Position

- LASCC's Position: **Oppose**
- Completely opens the door for liability and create a cottage industry for ambulance chasing attorneys. Who will be responsible for checking the expiration date on the device? And then, just like the ADA compliance shakedown suits, this will be the same.

I am not a healthcare professional, nor am I trained to educate others in the healthcare field.

What if my employees, residents, etc. do not apply it properly or not at all (could loose a limb)?

Who is liable? If someone applies it improperly and additional injury or death occurs, could that liability include criminal negligence

Read the bill. [Click Here](#)
