## SOUTH COAST AQMD 2022 DRAFT AIR QUALITY MANAGEMENT PLAN FOR RESIDENTIAL AND COMMERCIAL BUILDING MEASURES

### South Coast AQMD

#### **Purpose**

Proposed measures would require the use of zero emissions appliances in existing buildings to meet 2015 federal ozone standards.

#### **Details**

- Adopted on December 2, 2022
- [Adopted Plan 2022](#)

#### **Position**

- Recommend LASCC **Oppose** (note, it is neither legislation or a ballot measure)
- Some buildings were not designed to be easily retrofitted with zero emission appliances; this would require a whole restructure on a building. Additionally, retrofitting a building could be cost prohibitive on small businesses and mom and pop rental property owners, and could also require the displacement of the residents. South Coast AQMD is another unelected body making policy irrespective of how it effects the public.
